Professional Summary

Software Developer with 8+ years of experience in building, maintaining, and deploying enterprise-grade applications. Skilled in .NET (Framework & Core), cloud-native solutions on Azure, data engineering with Python, and front-end frameworks. Recognized for delivering robust fintech systems, implementing advanced Computer Vision and NLP solutions, and optimizing database performance through complex queries and stored procedures. Adept at working across the full SDLC, from architecture and development to DevOps automation.

Core Competencies

1. .NET Core, .NET Framework, C#, ASP.NET, Razor Pages
2. Frontend Development: React Native, ExtJS, Razor Pages
3. AI/ML: Computer Vision, NLP
4. Azure Services: KeyVault, WebApps, Blob Storage, Functions, OneConnect
5. Data Engineering: Python, SQL Server, Cosmos DB (stored procedures)
6. DevOps & CI/CD: YAML scripting, pipelines, containerized services
7. Enterprise Systems: Microsoft Project API, OnePlan data centers
8. Architecture: Microservices, modular monoliths, event-driven systems

Professional Experience

.NET Developer – Merik Solutions

10/2023 – Present | Remote (Pakistan)

1. Developed and maintained .NET applications (Core & Framework) across multiple architectures.
2. Integrated with Azure Cloud Services including KeyVault, WebApps, Blob Storage, Functions, and OneConnect.
3. Built and maintained Microsoft Project custom ribbons and APIs.
4. Implemented OnePlan central data center integrations through OneConnect.
5. Wrote Python scripts for data fixes, cleanups, and bulk changes in Cosmos DB.
6. Designed and optimized complex SQL Server queries and Cosmos DB stored procedures.
7. Automated deployments and CI/CD pipelines using YAML scripting and Azure DevOps.
8. Worked with ExtJS and Razor Pages for front-end development.
9. Collaborated with cross-functional teams to ensure data consistency and secure deployments.

.NET Developer – ValuedCart

10/2022 – 10/2023 | Sharjah, UAE

1. Developed a complex ERP system providing full visibility into company transactions.
2. Built CRM/HRM systems to improve customer connections and employee management.
3. Delivered scalable backend solutions using .NET, SQL Server, and integrated systems.

Full Stack Developer (Android + .NET) – Softtech

08/2018 – 06/2022 | Pakistan
1. Designed and developed management software tools with database integrations (SQLite, MySQL, Firebase).
2. Built mobile applications in Java (Android Studio) for clients and published apps on Google Play Store.
3. Developed multiple ERP software solutions tailored to business needs.

Education

BS Computer Science – Abdul Wali Khan University Mardan (09/2018 - 06/2022)

Technical Skills

1. Languages: C#, Python, SQL, JavaScript/TypeScript
2. Frameworks & Libraries: .NET Core/Framework, React Native, ExtJS
3. Cloud: Azure (KeyVault, WebApps, Blob Storage, Functions)
4. Databases: SQL Server, Cosmos DB
5. DevOps: Git, YAML, Azure DevOps Pipelines
6. Other Tools: Microsoft Project API, OnePlan, OneConnect

Languages

English – Full Professional Proficiency
Urdu – Native or Bilingual Proficiency
Pashto – Native or Bilingual Proficiency
